

• **Elma 900 – Voltage Tester 2-pole**

The Elma 900 is a handy safety voltage tester with smart design features. The instrument has a clear LED indication of relevant voltages and automatic polarity indication.

The test probes have both 2 and 4mm diameter test tips, which ensures good connection in all types of sockets. The Elma 900 meets IEC61010-1 CAT III 400V.

Features:

- LED voltage indication from 6 ~ 400v AC/DC
- Interchangeable 2 and 4mm test probes
- Meets IEC61010-1 CAT III 400V

Specifications:

Model:	Elma 900
LED Voltage Range	6, 12, 24, 50, 120, 230, 400v AC/DC
LED Resolution	±12, 24, 50, 120, 230, 400v AC/DC
AC Voltage Frequency Range	50/60Hz
Internal Basic Load	Approx. 10W @ 400v
Peak Current	1s < 0,2A / (5s < 3,5mA)
Dimensions	240(H) x 45(W) x 26(D) mm
Weight	125g
